

## Information Technology

### A Career in Information Technology

VA relies on its innovative IT systems to transform the Department into a 21st century organization prepared for the challenges of today. New advances in the Information Technology (IT) field make jobs in this area at VA exciting and innovative.

As an IT employee you will leverage state-of-the-art technology in the areas of data storage, software application and networking that support the systems and technological resources the Department depends on to deliver upon its mission to provide high-quality services to Veterans.

### IT Management

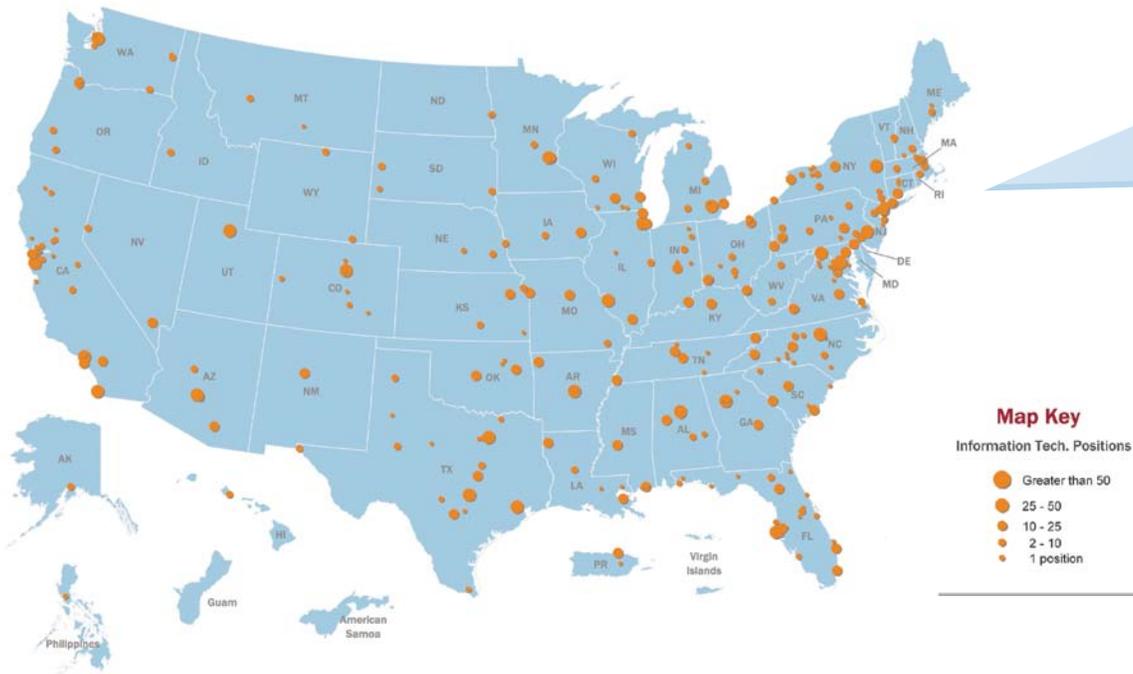

The Information Technology Management series supervises, manages, administers, develops and delivers IT systems and services. This series covers only those positions for which the paramount requirement is knowledge of IT principles, concepts and methods (e.g., data storage, software applications and networking). Positions include:

- IT Specialist
  - Policy and Planning/Chief Information Officer (CIO)
  - Security
  - Applications Software
  - Data Management
  - Internet
  - Customer Support
  - Systems Analysis
  - Operating Systems
  - Network Services
  - System Administration
- IT Project Manager

### MyCareer@VA

VA is committed to career development and supports employees' ambitions to grow, learn and advance. Building a career at VA is a partnership, and we are dedicated to providing you the career resources and materials you need to achieve success.

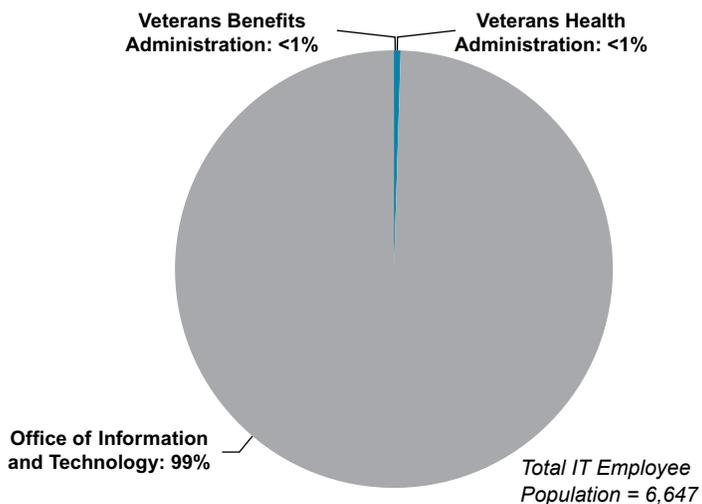

The MyCareer@VA program delivers interactive and engaging career development tools to help you explore and chart your long-term career path within VA.

## Information Technology Job Locations

VA's IT positions are dispersed across 364 cities within the United States. The top five IT occupational family geographic locations are Austin, Texas; Washington, D.C.; Hines, Ill.; Bay Pines, Fla.; and Philadelphia, Pa.

### VA IT Job Distribution by Administration

VA's IT positions are distributed among the Veterans Health Administration, the Veterans Benefits Administration and the Office of Information and Technology to meet the broad range of needs facing the Department.
